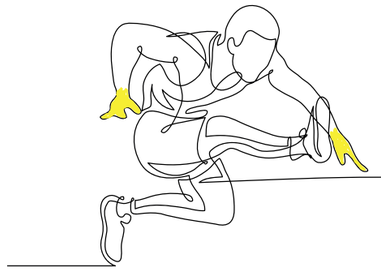
VITUS
Core Cooling™

Join the revolution! VITUS Core Cooling™ offers all the benefits of trending whole body cooling applications using only the palms of your hands. Self-explanatory via user interface - for self-service and new business!



VITUS Core Cooling™

For high sports performance

Whether before, during or after strenuous training sessions:
Top athletes have long relied on the regenerative effect of cooling.
VITUS Core Cooling™ now supports amateur and professional athletes on their way to top performance.

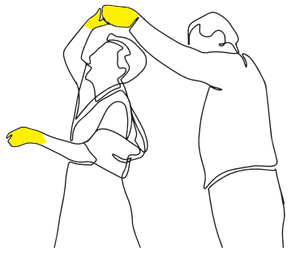
VITUS Core Cooling™

For Wellness & Recovery

Invigorating and relaxing in equal measure:
Cold applications have positive effects on the entire immune system. At the same time, they effectively contribute to relaxation and well-being.

VITUS Core Cooling™

Against pain



User also report less pain after cooling applications, especially in cases of joint problems. No wonder: from a certain degree of cold, the entire organism is activated - with all known positive effects on pain and inflammation processes.

Innovative. Effective. Adaptive.

Perfect usability, perfect flexibility: VITUS Core Cooling™ fits into any environment due to its elegant, timeless design. Treatment temperature and duration can be easily individualized thanks to the User Interface and RFID-technology.

Whole body cooling via Table-top

VITUS Core Cooling™ utilises the natural heat exchange capabilities of the palms for cooling the body gently and carefully. How it works? The palms, rich in blood vessels, act as efficient heat exchangers that enable rapid and effective heat dissipation. The negative pressure technology integrated in the cooling chambers enables efficient circulation of the cold in the body in order to develop the full effect of the cold application.

VITUS Key Cards for self-running business

Thanks to RFID technology VITUS can be easily individualized. The key cards are rewritable to allow new settings for new customers.

VITUS User Interface

The VITUS User Interface guides quickly and reliable through the application. Remote access allows the installment of individual background-videos: The perfect advertising platform for your business.

VITUS Ergonomics for full satisfaction

Medical silicone cuffs ensure the cooling & low-pressure effect stay in the chambers. Special designed armrests, that can be easily re-positioned, offer a comfortable and ergonomic position of the arms during treatments.

VITUS Core Cooling™ - the intelligent cooling system for new business
